

Amendments to the Claims:

The below listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claims 1 - 104 (Canceled)

Claim 105 (Currently Amended): A ~~cartridge~~ tube of film arranged, in use, to be made into air bags and the tube of film being elongate and comprising: an elongate tube from which air bags are to be made, the tube including a passage throughout the length thereof through which, in use, air is arranged to pass in order to comprise the air in the air bags, characterised in that the tube has been bunched up along its elongate axis to form bunched up film such that the length of the bunched up film is less than the length of the extended film and in that the film is heat sealable.

Claim 106 (Currently Amended): A ~~cartridge~~ tube of film as claimed in claim 105 in which the film is detached from at least one end of a container of the tube.

Appl. No. 10/542,267

Amendment dated June 9, 2008

Response to Office Action dated March 13, 2008

Claim 107 (Currently Amended): A ~~cartridge~~ tube of film as claimed in Claim 105 including an elongate member extending through the tube ~~through which member air is arranged to flow.~~

Claim 108 (Canceled)

Claim 109 (Canceled)

Claim 110 (Currently Amended): A ~~cartridge~~ tube of film as claimed in claim 107 ~~claim 109~~ in which the elongate member is arranged to hold the passage is arranged to be open even when air is not passing through the passage film.

Claim 111 (Canceled)

Appl. No. 10/542,267
Amendment dated June 9, 2008
Response to Office Action dated March 13, 2008

Claim 112 (Currently Amended): A cartridge tube of film as claimed in claim 105 ~~claim 110~~ in which the passage is arranged to be open through the natural role flexure of the bunched up film.

Claims 113 - 116 (Canceled)

Claim 117 (Currently Amended): A cartridge tube of film as claimed in claim 107 ~~claim 116~~ in which the elongate member comprises a carrier of the film.

Claim 118 (New): A tube of film as claimed in claim 107, in which air is arranged to flow through the elongate member.
